INNOVATIVE AND GREEN

EVINOKS

Having a 23.600 m² indoor area with a live showroom, production, offices, the factory creates an environmental and innovative working atmosphere both for the community and the employees as well as saving energy, water and heat. The facility was built up completely with recycled materials according to Green Building Standards. EVINOKS facility is capable of being a candidate to the LEEDS Gold Green Building status. Evinoks has international (CE-SASO-ISO 9001) certification and is the supplier of international and national chains like Sheraton, Hilton, Dedeman, Ramada, Crown Plaza, Marriott, Radisson, Rixos, Mövenpick, Holiday Inn, Rotana, Divan etc. In search of innovation and excellence with team spirit, EVINOKS makes a difference in every product produced. "As regard of the technology ; Evinoks is proud of its metal and wooden craftsmanship as well as the modernised machinery park recently renovated with the CNC controlled metal & wood processing machines, and robot welding.

BANQUET CHAIRS

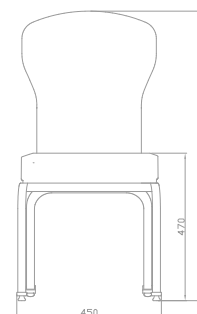

Evinoks; offers a wide range of chair collection with features like various frame finishes & colour options, feet gliders move easily both on carpet and hard floors. Fire retardant fabric is an option. Not all the fabrics are fire retardant. The upholstery of the chairs can be chosen from the Evinoks fabric collection and sewed with care by our experienced craftsmanship. All the chairs have a CFC free polyurethane seating plate that are supported by an high density injection moulded plastics. Evinoks has the technology of the 6 axis fully automatic metal bending and the robot welding from one point to manufacture quality, strong and ergonomic banqueting & conference chairs at competitive prices.

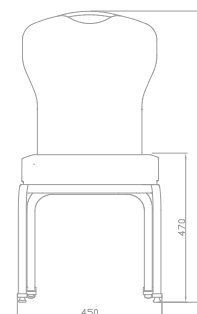

SELECT

Select is designed to be a delicate & contemporary model to bring an esthetics to your venues. It has a flex lumbar support to provide and ergonomic comfort and quality.

BANQUET TABLES

Design to serve in restaurants, meeting rooms and ball rooms with easy to open/ close legs. Specially designed trolley, enables an ease and safe transportation.

Legs and the frame are made of epoxy powder coated steel and chrome effect paint. BY series; have controlled mechanism from two cross-legs, which is easy to use.

Legs must be stretched behind while closing for security reasons.

BANQUET TABLES

It's an easy and fast operation to open and close the legs with the spring weighed locking mechanism. All models ; have adjustable feet for uneven grounds. Tops can be made of 18 mm mdf-mdflam-plywood -waterproof plywood -flock coated and produced by the CAD controlled panel shape & edgbanding machine centre.

Flock coated top.

One-Touch System

The legs can be easily folded/unfolded by pulling the trigger of the double locking mechanism.

Evinoks patented aluminium edge provides maximum protection.

BANQUET TABLES

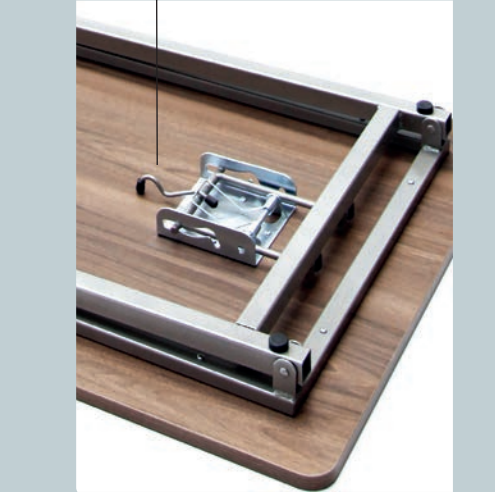

Edges can be produced; with the Evinoks patented aluminium or pvc band protection.

One-Touch System

The legs can be easily folded/unfolded by pulling the trigger of the double locking mechanism.

MDF laminated top.

CONFERENCE TABLES

It gives a comfort while sitting with its "C", "I", "H" shapes. Not only unwanted accidents have been prevented with its security lock of folding mechanism, but also a high rigidity has been aquired. Your conference halls can have a luxurious appearance with its corner parts and front panels. Edge forms can be chosen among natural wood, PVC band and plastic T-band. Different table top finishes are available. We offer chrome effect paint, stainless steel or epoxy painted legs with colour options. Our architects can provide you with CAD layout as per your request.

ELITE SERIE

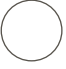

Elit serie comes forward with its new, modern and chic leg design. Soon it's going to be essential for the meeting rooms and conference halls. Thanks to the unique design locking mechanism that provides a practical and an easy folding system for the operators. Easy to handle and minimum storage space.

Modesty panel

- * The capacity may reduce if chairs are with armrest.
- * These codes are for tables without power module. Tables with power module end with the code "D02" or "D03"(USB dataport).

The other models have their own wheels.

DANCE FLOOR

Light and enduring plywood panels on strong aluminium frames. On top of panels there are laminate parquets 8 mm (12000 taber). Bottom is varnished with a strong varnish against humidity. Due to aluminium circular cross section frames (exclusive patent of our company) the dance floors do not move or slide. Therefore, no need to be squeezed with a screw bolt
